Github: <https://github.com/bhaumik-jangid>

Email: bhaumikjangid@gmail.com

Mobile: +91-7678126653

Skills

Languages:	C, C++, JavaScript, Python
Frameworks & Libraries:	React.js, Next.js, Express.js, Django, Tailwind CSS
Databases:	MongoDB, MySQL, PostgreSQL
Soft Skills:	Problem-Solving, Team Collaboration, Quick Learner, Adaptability

Projects

Resolve – Customer Support Chat System | [Github](#) Jan' 26 – Feb' 26

- Delivered a real-time customer support chat platform with seamless messaging and intuitive UI.
- Engineered efficient message routing along with structured ticket management workflows.
- Optimized system architecture for scalability and consistent performance under load.

Tech: React.js, Express.js, Node.js, Socket.io, MongoDB, JWT

Harmony AI – Context-Aware Chatbot | [Github](#) Mar' 25 – Apr' 25

- Built a context-aware chatbot capable of maintaining conversational state across multiple interactions.
- Streamlined backend processes for efficient message handling and context tracking using REST.
- Enhanced response quality and conversational flow through improved system logic.

Tech: Next.js, Express.js, JavaScript/TypeScript, REST APIs, Vercel

MyAuth – Authentication Service | [Github](#) Dec' 24 – Jan' 25

- Developed a modular authentication service using Next.js and TypeScript with secure JWT-based access control.
- Automated email workflows integrated with authentication processes.
- Designed reusable, type-safe REST APIs for seamless cross-application integration.

Tech: Next.js, TypeScript, JWT, Nodemailer, REST APIs

Training

AI & Machine Learning | [Certificate](#) Jun' 25 – July' 25

- Gained a strong foundation in data science workflows, preprocessing, feature engineering, and statistics.
- Applied machine learning techniques including regression, classification, clustering, and basic deep learning.
- Completed projects such as an NLP-based chatbot and a CNN-based image classifier.

Tech: Python, Pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI, Excel, Git

Certifications

Python & Django CipherSchools	Aug' 25
Cloud Computing NPTEL	Jul' 25
C++ CipherSchools	Jan' 25
Foundations of User Experience (UX) Design Google	Oct' 24

Achievements

Solved 300+ algorithmic problems on LeetCode , Codeforces , and GeeksforGeeks	May' 25 – Present
Secured Premium Milestone recognition in Google Cloud Arcade	Aug' 25 – Nov' 25

Education

Lovely Professional University Bachelor of Technology in Computer Science and Engineering; CGPA: 8.0	Phagwara, Punjab Aug' 23 – Present
Arpan Public School Intermediate; Percentage: 87.2%	Saharanpur, Uttar Pradesh Apr' 21 – Mar' 23
Atal Adarsh Bal Vidyalaya Matriculation; Percentage: 91%	New Delhi, Delhi Apr' 20 – Mar' 21
